H2S Alive® Member: \$280pp Non Member: \$325pp

---

## H2S Alive® - Description

This one-day course is intended for all workers in the petroleum industry who could be exposed to hydrogen sulphide (H2S). The course covers the physical properties and health hazards of H2S, how to protect oneself and basic rescue techniques. Each student is required to operate self-contained breathing apparatus, a detector tube device, and perform rescue breathing and rescue lift and drag exercises.

An industry standard certificate valid for three years is issued upon successful completion of a written examination and demonstration of the required skills.
